Emerson also presented a number of books such as Memoir of Reginald Heber, The Youth's Book of Gems, Lectures to Young Men, The Last Warning Cry, Rural Life, Twenty Years ago and now, Cosmos, The Christian Contemplated etc.

The Library is always open to strangers who are gladly welcomed.

A strong and handsome bridge is to be erected over the Waialua on Kauai, the material for it came on the Mariposa and the work will be superintended by Mr. Butler of the Pacific Bridge Company.

In the account of the trial trip of the Kinan published in yesterday's issue, it inadvertently omitted to give the name and date of the paper from which the report was taken. It was the *Philadelphia Record* of August 19th, which was kindly lent by the Hon. S. G. Wilder.

At a meeting of the Women's Board of Mission held on Tuesday afternoon, Mr. Frank Damon gave an outline of his proposed trip to China, and thanked the Board for their contribution of \$300 towards the expenses of the Kohala Chinese Church; Mrs. Dimond also gave \$35 to the same church for the purchase of a Communion Set.

The sole topic of conversation yesterday was the protest of His Majesty, on behalf of the islands of the Pacific, as published in the *Gazette*. The only opinions expressed, were ridicule at the document and regret that His Majesty should have been induced to take such an injudicious step.

Mrs. Langtry is to do Australia next year on an engagement of sixteen weeks, beginning in Melbourne in July. It is announced that she will receive a salary of nearly forty thousand dollars for the round trip. Doubtless her Australia manager, who is an old hand at the Antipodean bellows expects to make fully one half as much. It is evident that there is a scheme afoot to bankrupt Australasia.

A meeting of the members of the Myrtle Rowing Club was held on Tuesday evening when the following officers were elected: Jas. Torbert, Captain; W. Monsarrat, Assistant Captain; A. Brown, Secretary; A. Robertson, Treasurer. The following new members were elected: W. G. Ashley, W. F. Love, H. Hebbard. The club hope shortly to build a new boat-house, twice the size of the present one, if they can obtain sufficient funds for the purpose.

At 11:15 last night No. 1 Fire Bell rang out its dolorous alarm. The fire turned out to be in Mr. Frank Pratt's yard, off Beretania street, where a large heap of rubbish had been set alight by some person. The blaze for a short time was very fierce, but it was fortunately got quickly under control. The water supply was next to nothing so that the hoses on the premises were practically useless. Engines No 1 and No. 3, officer Mehrtens (who forbade further ringing of the bells until definite information as to the fire was obtained) Mr. Ross, some natives, a man with a lantern, and representatives of the *Gazette* and *BULLETIN* were the only people who arrived at the scene of the disaster.

Mrs. Irwin, who died at her son's residence at Waikiki on Tuesday evening, came to Honolulu about the year

1850. She had been ailing for some time and her death was not altogether unexpected. Her husband, Mr. Joseph Irwin, died on 25th July 1871 and was sixty seven years of age. All the ships in port had their flags lowered to half-mast high yesterday and the funeral which took place in the afternoon was very largely attended. Most of the leading business houses were closed during the afternoon as a mark of respect.

His Honor Mr. Justice Judd returned yesterday from his three week's holiday trip round this island. He speaks in the highest terms of the kindness shown to him by every body who placed everything at the disposal of himself and family; the mounted police were especially attentive and escorted him during his peregrinations. The country, after the recent rains, has been looking beautifully fresh and green; plenty of bathing, good living, good scenery and change of air have induced His Honor to pronounce a trip round Oahu as preferable to a visit to Maui or Hawaii.

THE OTHER ISLANDS.

From Our Own Correspondents.

ON KAHOO LAWE.

Three years ago Mr. Wm. Cummings the present manager and principal stock holder of the Reciprocity Sugar Co. bought a 34 year's lease of Kahoolawe from Judge Allen and at once put stock on it. Mr. Cummings purchase of this lease was a blind venture as he had never visited the Island and knew nothing of it except from the representations of parties interested in negotiating for the sale of it. However the venture has proved a success and instead of having a white elephant on his hands as was predicted he has in Kahoolawe one of the finest stock ranches in this Kingdom. I embarked in a whale boat at Maalaea Bay and after a pleasant sail of about four hours we ran into the prettiest harbor I have seen on any of the Island coasts. The harbor is large and sheltered and a large vessel can moor within a stone's throw of the shore; the Likelike called in there to leave stock. On going ashore I found three very comfortable wooden houses and one grass house. Also from four to five hundred head of cattle, among which are three imported bulls of the short horned Durham breed, thirty head of horses and brood mares and an imported Hamiltonian stallion, all in good order. There are on that Island from eight to ten thousand goats, and about two thousand sheep as fat as butter and of an enormous size. The Island itself consists of 32,000 acres 22,000 of which are superior to any grazing land on the Island of Maui. Notwithstanding the long dry spell we have had the grass there is luxuriant and abundant. There are two inexhaustible wells which were at first brackish but after pumping for a few minutes the water is as sweet and good as any mountain water. The top ridge of the Island is an immense flat plane and it is at present entirely bare but at a comparatively small expense grass can be grown over the whole of it.

On my return to Maui I journeyed along the windward coast and stopped at Kaupo another fine stock ranch of 12,000 acres owned by Mr. Cummings and well stocked with cattle, mules and horses; he is also one of the largest planters for the Wailuku Sugar Co. and has large taro lands in Wailuku which yield him a nice little income per annum, and bid fair to make him one of the wealthiest half-whites in Hawaii nei.

HONOKA'A.

The weather for the past week in this district has been unusually cold and wet, there have not been such heavy rains for years; the roads are in a very bad condition. Riding along the other day I noticed a Chinaman carrying a lunchpail in one hand and throwing loose stones off the road with the other and enquired what he was doing; he informed me that he had a *conclaker* for repairing the roads from Paauhau to Ooakala a distance of 16 miles, it is hoped that our ends of the district may be similarly blest with another "*Conclaker*."

The *Village Blacksmith* undertook to chastise a colored gentleman the other day but very soon found out that he had tackled the wrong man.
